COMPANY PROFILE

LAYING THE FOUNDATIONS OF THE FUTURE

METAXAKIS ATHAN.A.B.E.E. Group of Enterprises has been active in the overall field of contract furniture for more than 50 years and enjoys the utmost recognition both in the Greek market and in the 45 foreign countries where it exports.

Describing a dynamic path of growth for a number of years, METAXAKIS Group is unquestionably the Leader in its field, offering unique products and services which fulfill every demand and exploit the facilities of all companies in the best of ways.

FROM A TO Z

METAXAKIS ATHAN. A.B.E.E. Group's vertical production process spans from the study and design stage, to the certified final production and delivery of the products.

This is one of the elements which ensure the complete coverage of professional furniture requirements of every company, from the private and public sector.

Hotels, restaurants, cafes, bars, as well as companies looking for comprehensive solutions for the office, describe the group's extended clientele both from Greece and the international market.

WARRANTY - SUPPORT

All products undergo the strictest quality controls, come with written warranty, and are fully covered by the group's technical support department!

ALL AROUND COVERAGE

The primary production stage in METAXAKIS Group's factories in Greece and abroad, combined with the large imported quantities from selected partners, ensure the market's best prices, without any "sales" in the quality of products.

The experience and training of the Group's personnel guarantee the best possible results in the study, design, implementation and optimal exploitation of all spaces.

By meeting the requirements and requests of each customer separately, we offer products and services that are "tailored to fit" your desires.

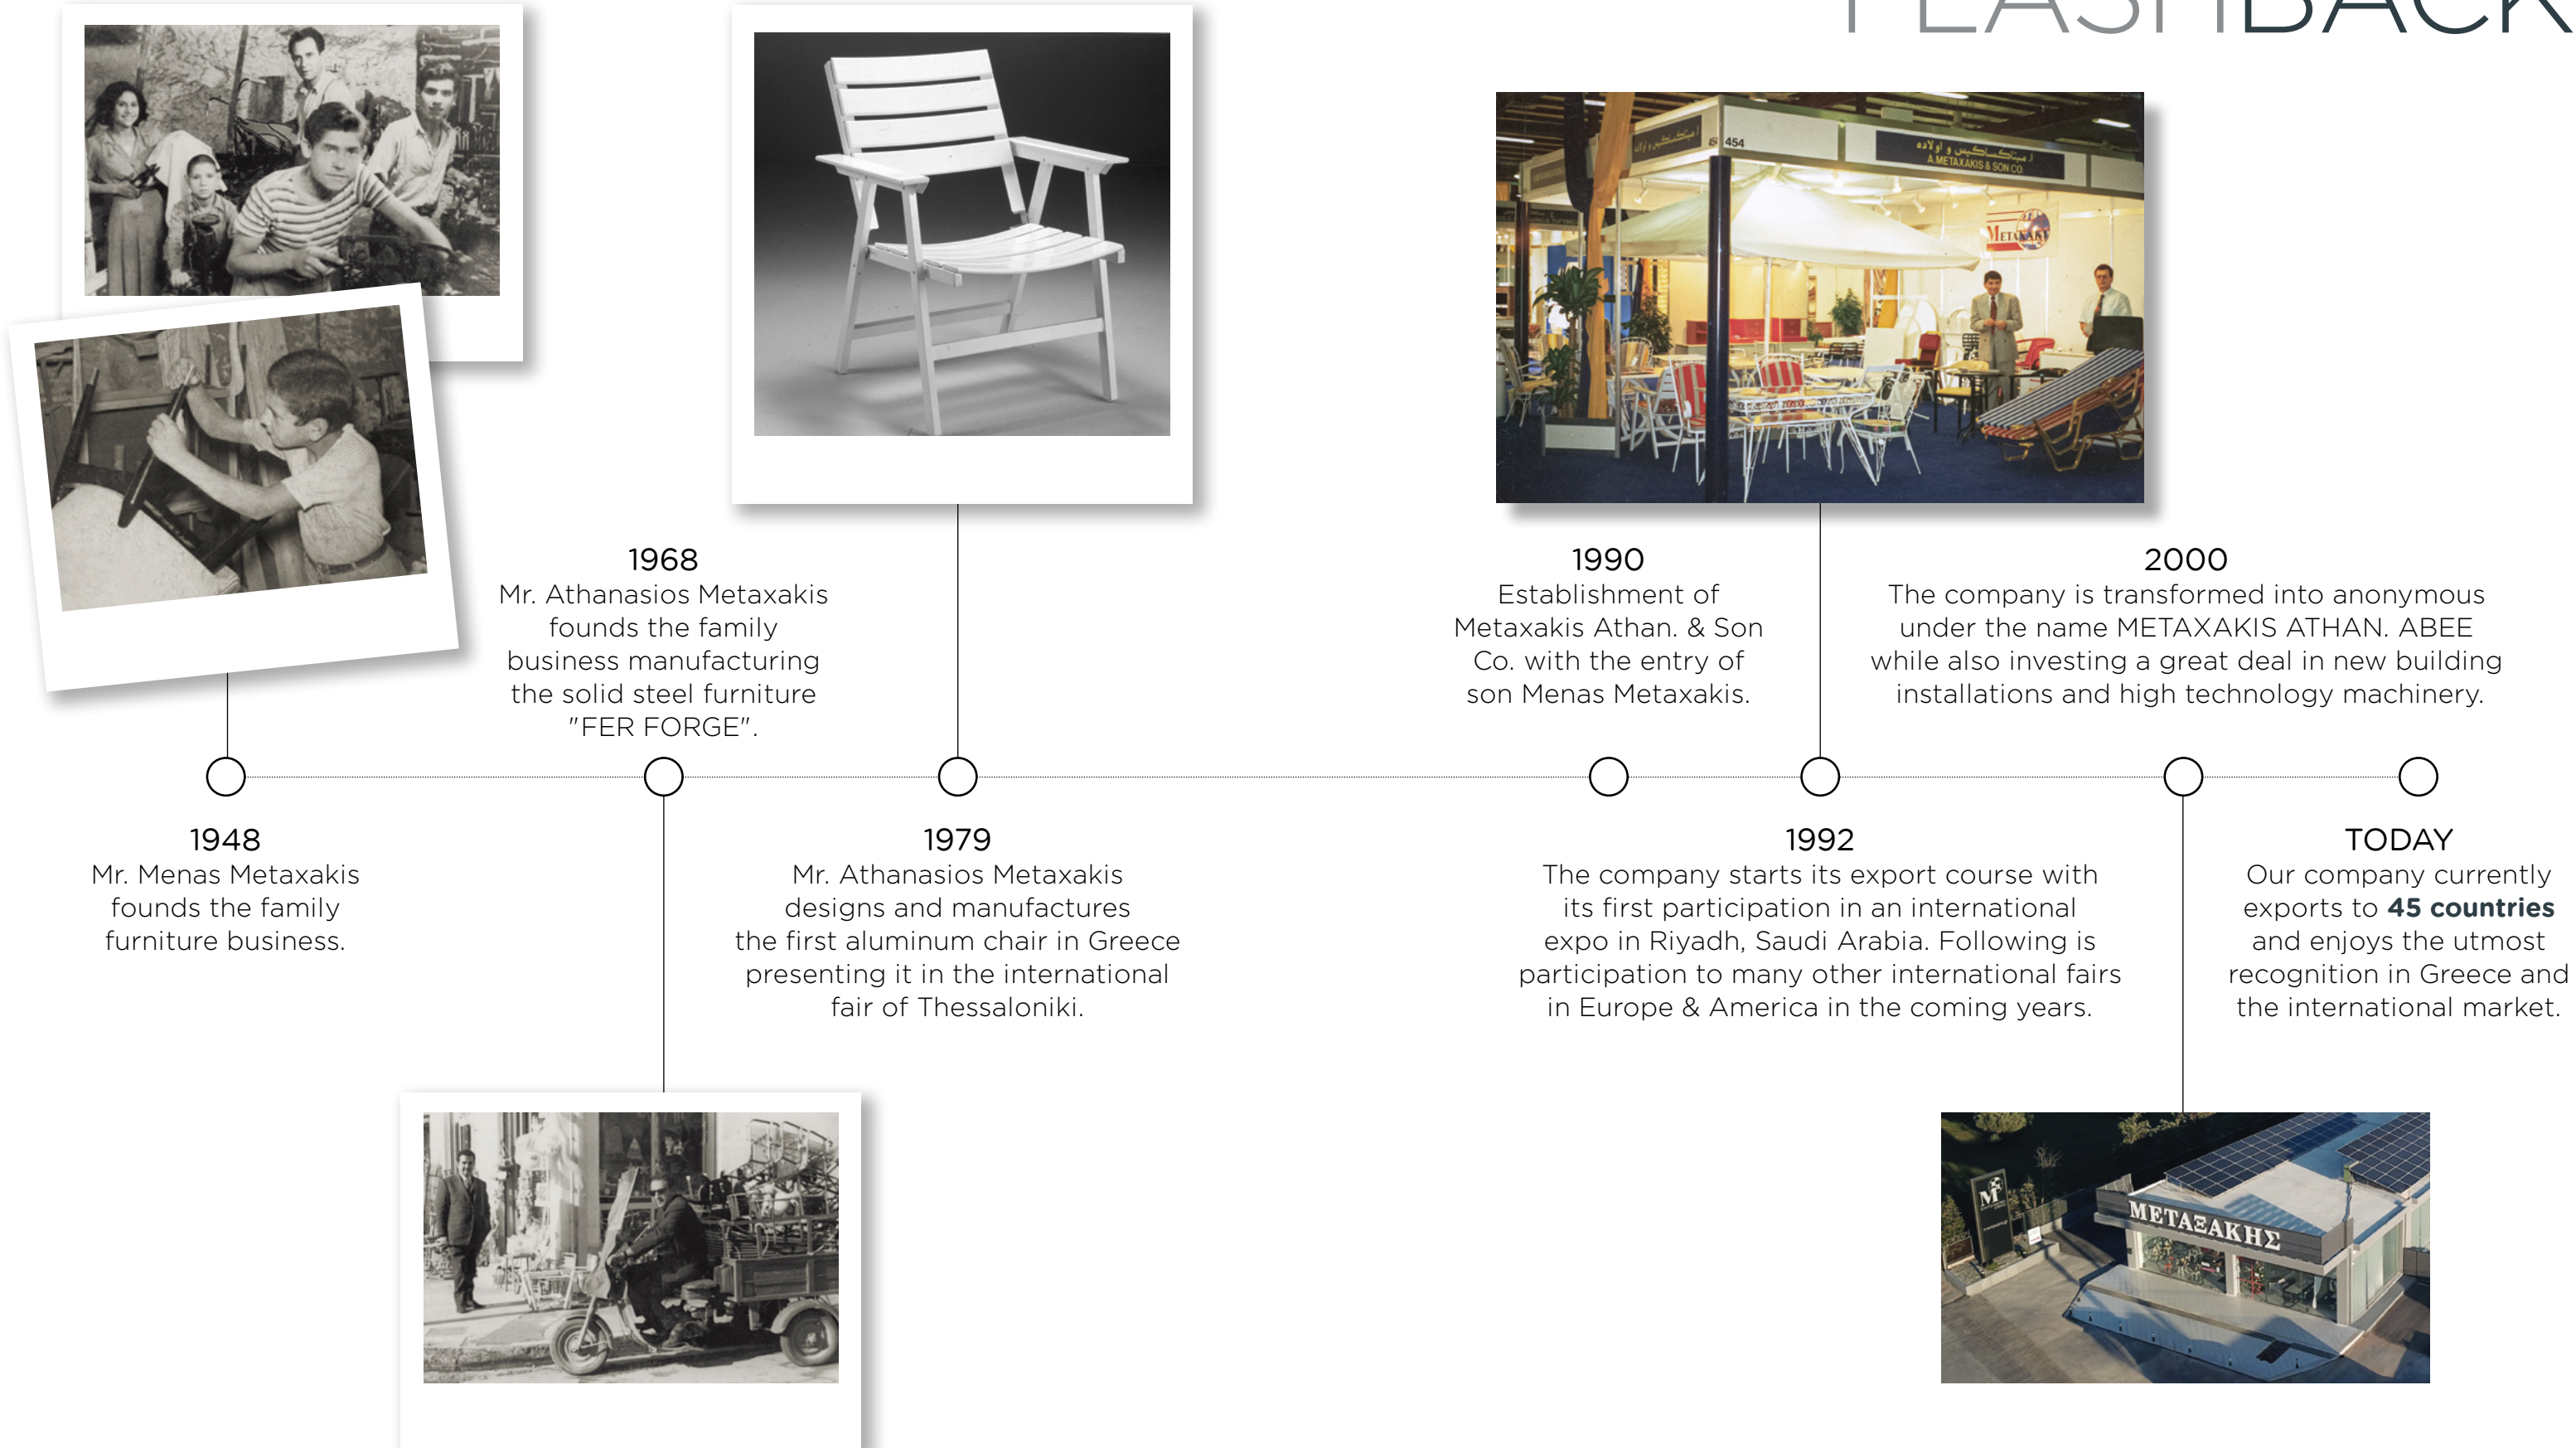

As a result of this, we regularly maintain the largest collection of furniture and related articles in Greece, satisfying the most demanding expectations in the best of ways.

AN EXPORTING FORCE

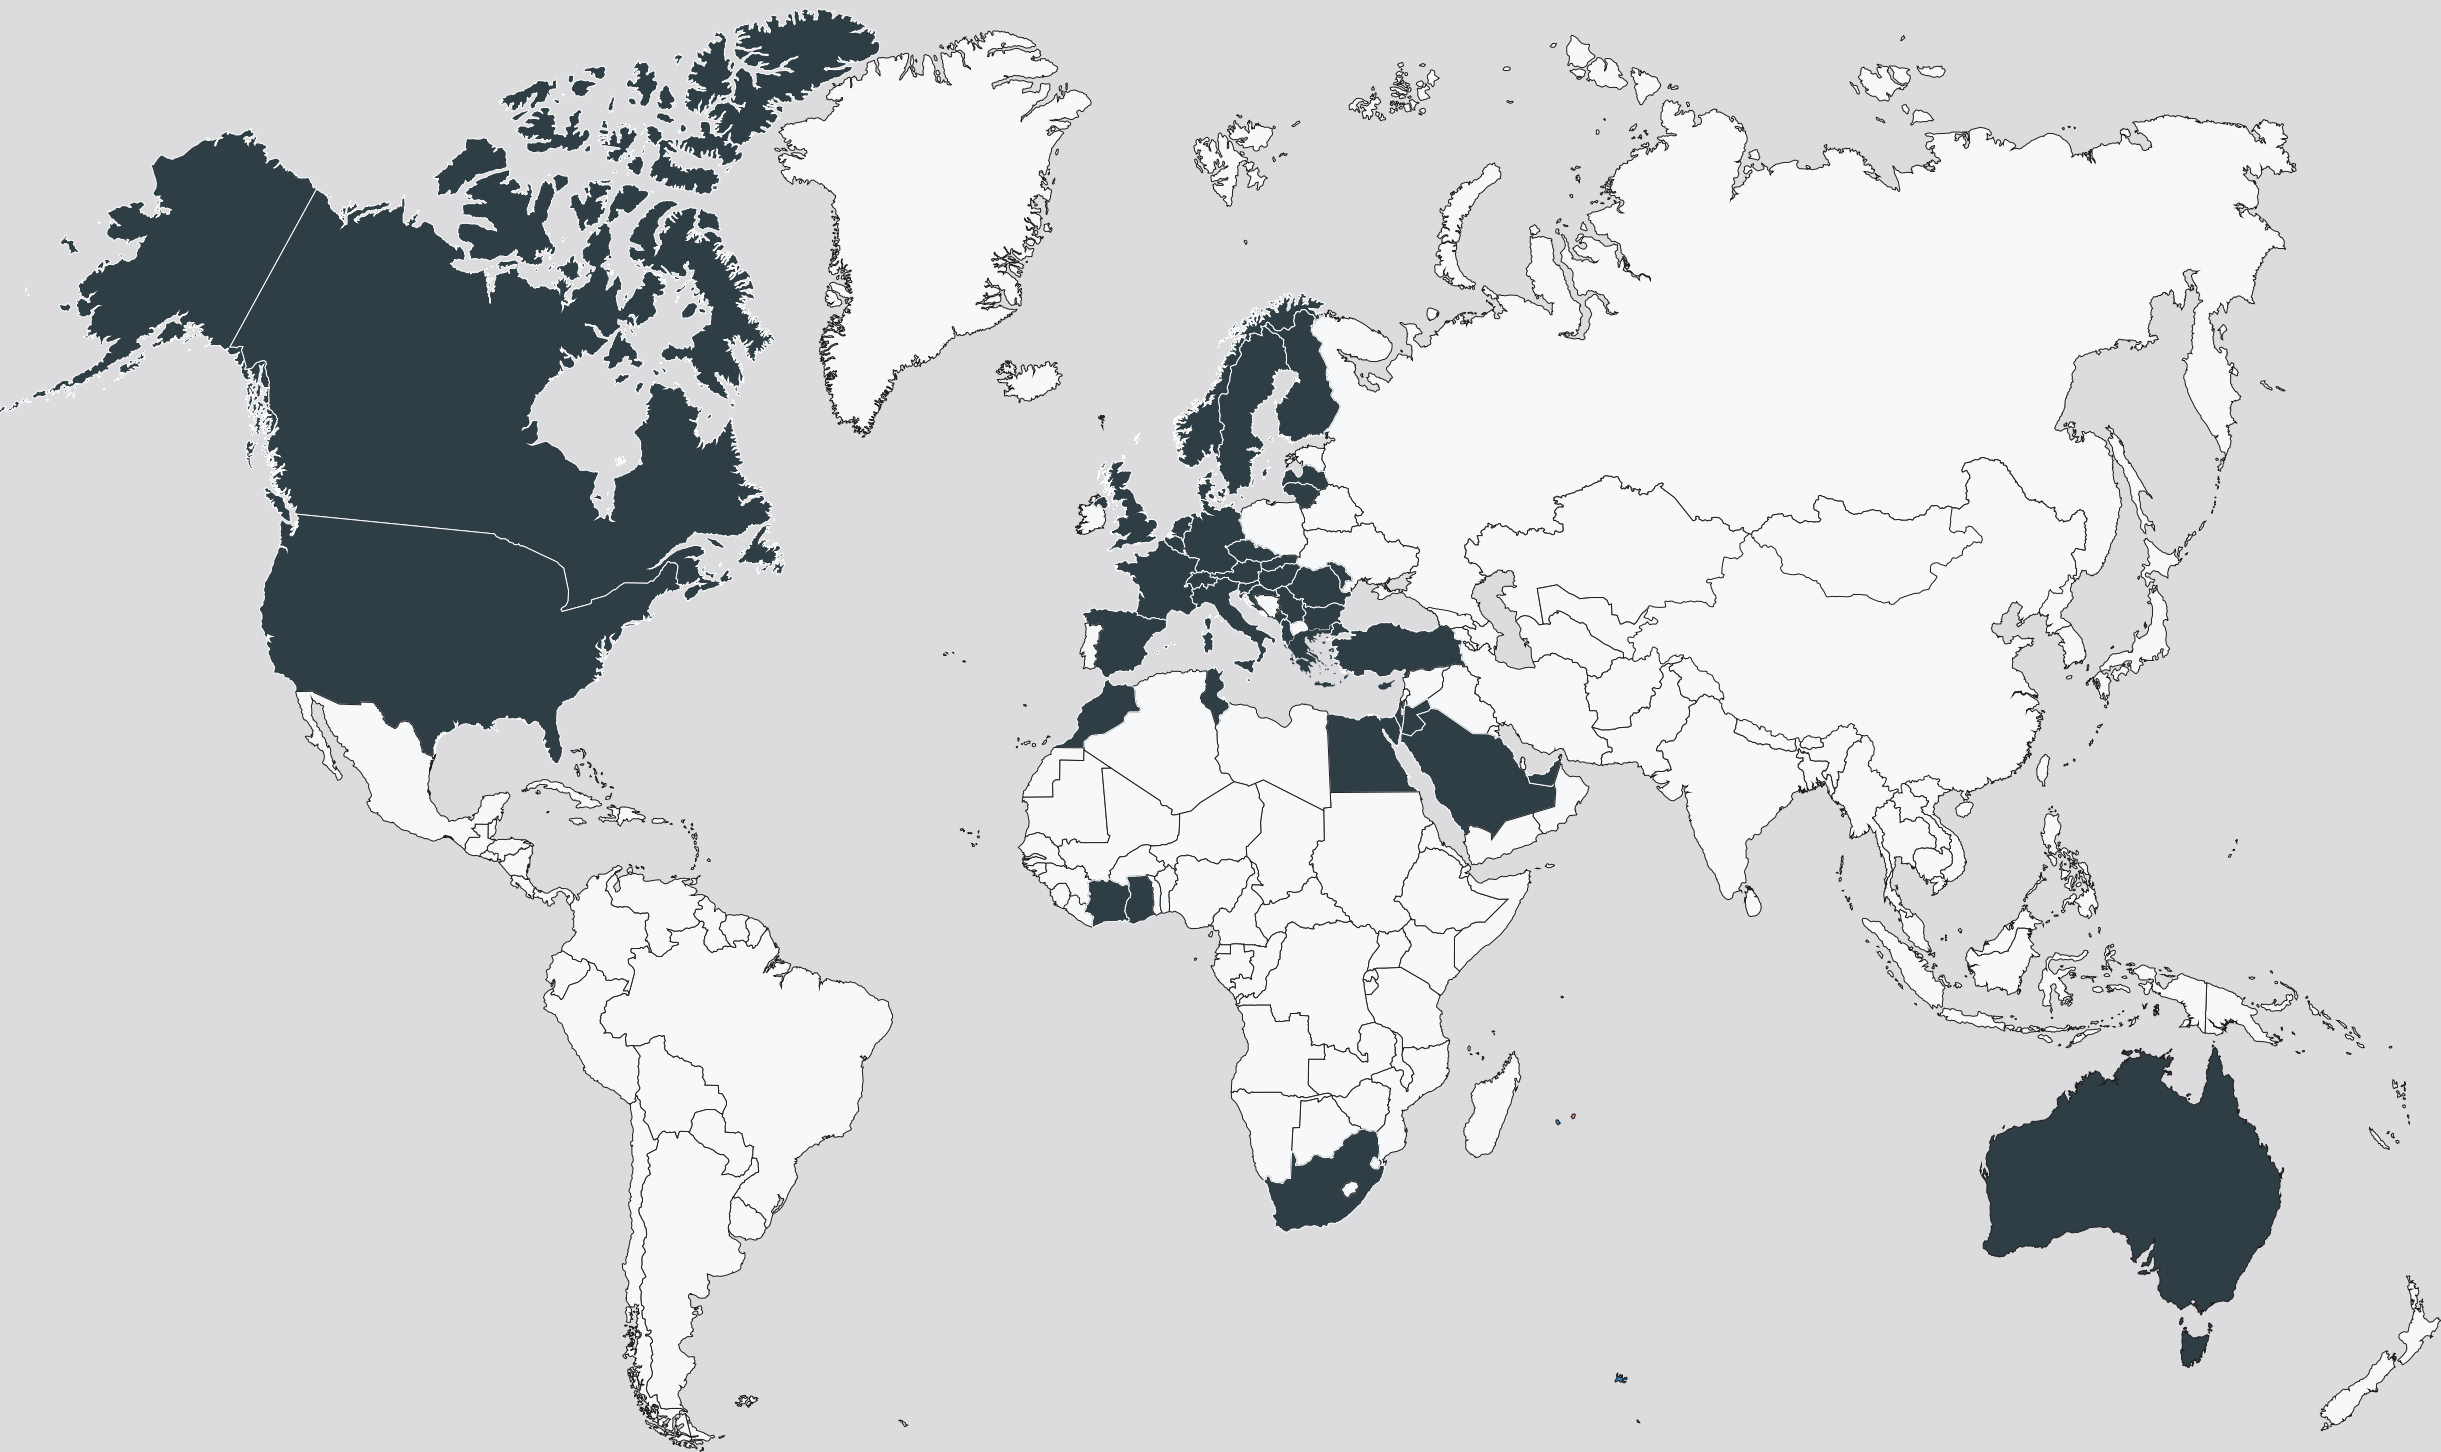

The international activities of Group and the 50 years of its products' dynamic presentation all over the world proves in the best way the quality of the name who sign each product.

Fun replaces formality with the Pensacola Coffee Table from Azzurro Living, featuring a smooth, polished table top and base with a carved edge detail. Forms are irregular, yet distinctive and dramatic, bringing spaces to life. The hand-hammered effect of concrete exhibits rich textures and weathers hard use. Light weight, sturdy, and nearly impervious to the elements due to the durable nature of concrete and its glass fiber reinforced structure.

HIGOLD®

HIGOLD®

by pininfarina

Pininfarina Extra, is part of the world-famous design house Pininfarina, whose history traces back to 1930 when the company was established by Battista Pinin-Farina, who became the most acclaimed car designer of his time. For example the Cisitalia 202 by Pininfarina (1947), was the first and only car to enter into a permanent display at the MoMA of New York, in 1961. Up to today, more than 100 Ferrari cars that have gone into production have been designed by Pininfarina.

In 1986, the third generation of the Pininfarina family created Pininfarina Extra srl to extend the design capabilities of the company, outside of the automotive sector. Over the past 30 years, Pininfarina Extra has developed more than 600 projects under the direction of its President and Chief Executive Officer, Paolo Pininfarina (now Chairman of the Pininfarina Group), and has established its own direction and a clear identity.

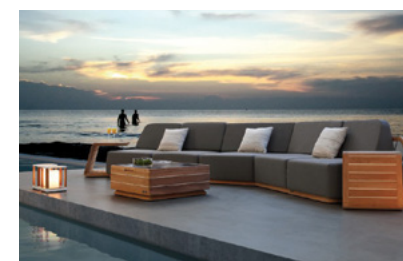

Today the company has ventured into a variety of commodity sectors where products bearing the Pininfarina name have won acclaim in the world's leading markets. The company attempts to blend the most advanced features of scientific, technological and engineering research with attractiveness that should accompany the things we

use every day. Pininfarina Extra is a reliable and competent partner to firms wishing to use design as a strategic asset for their product development process and a tool of communication to improve their position in the market.

The main activities of the company include Industrial design (electronics, sporting goods, furniture, equipment and machinery, consumer products, graphic design and packaging), Architecture and interiors (residential, hospitality, sport and commercial structures), and Transportation design (Yachts, airplanes, private jets, people movers).
